

PS. 5.1-25 VICTIMS RECEIVING SERVICES

Indicator Phrasing

English: Number of victims of human trafficking receiving services (medical, repatriation, legal, transportation, etc.).

What is its purpose?

This indicator will measure the total number of victims of human trafficking receiving protection services provided by State and USAID implementing partners. Please note that this indicator is a United States Government Standard Indicator, or "F Indicator", and can be included in the MEL plans of USG funded projects.

How to Collect and Analyse the Required Data

This indicator will measure progress on Protection. Data will be collected quarterly to inform strategic reviews and the data will be shared in the annual PPR.

Disaggregate by

Gender

Important Comments

This indicator will measure the work under Protection. The USG's Theory of Change purports that strengthening protection services for victims will advance the fight against trafficking in persons by helping victims make the transition to survivors.

WARNING: This guidance was last updated in February 2023. Before utilizing this guidance, please check that it aligns with the latest Foreign Assistance reference sheet for indicator PS 5.1-25. This can be found in the live [IRS Category 1 Peace and Security](#) resource below. You can also check the [State Department Resource Library](#) for a full list of F Indicators.
